Like typical single strand carpet does.

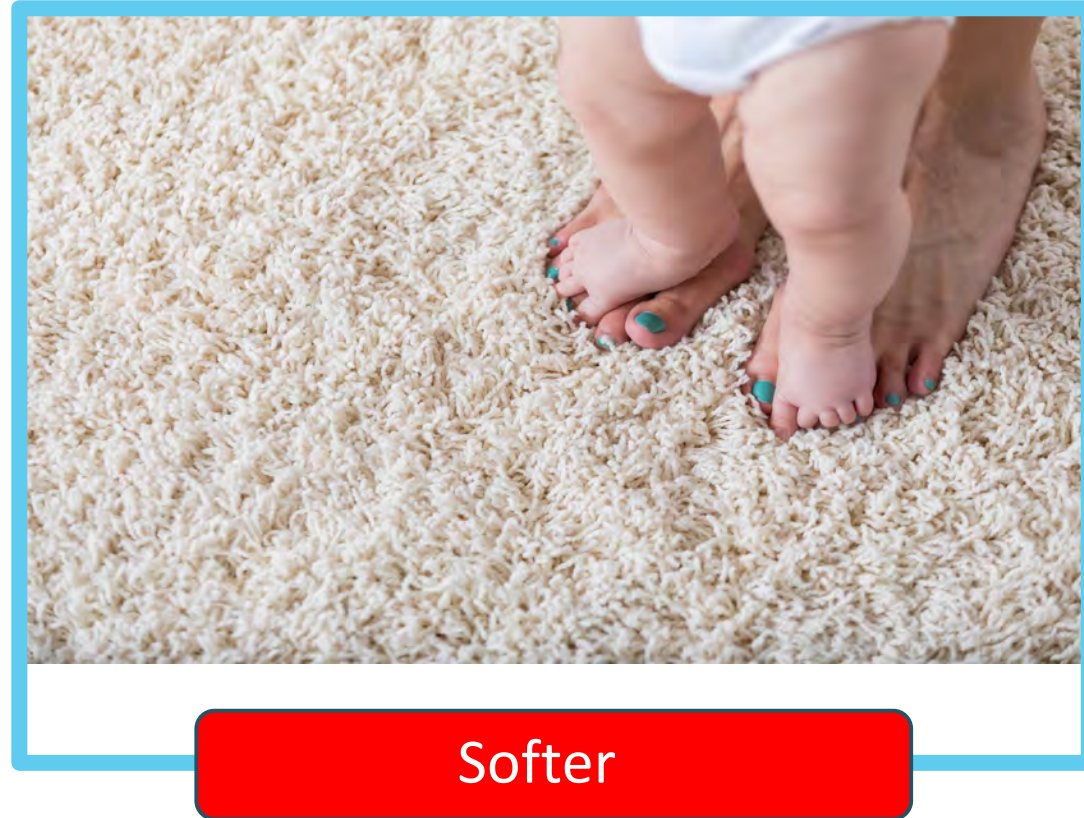

Strength

# SOFT

By twisting multiple strands of fiber BCF polyester You get a much softer feel than a typical Single strand Nylon carpet

## COLOR

Pure color is solution-dyed fiber so the color goes All the way through each fiber, like the color in a carrot, so the Color will not, fade, wear off, or stain. Unlike typical top dyed carpet that acts like paint and will fade Wear off and stain easily...

Lasting Colors

## STAIN FREE

Built in protection with our Soil shield protection That is applied to the inside and outside of each fiber, so you will have a stain free carpet for life. Carpet that will even withstand bleach unlike other carpet.

Stain Free

# THE TOP PROBLEMS WITH INSTALLING CARPET WITH OUT A PROFESSIONAL INSURED COMPANY

1. Improper / too thin padding breaks down causing carpet to wear faster
2. Unprotected padding traps moisture that can lead to mold
3. Improper stretching will cause carpet to wrinkle
4. Unprotected carpet will absorb stains from pets/kids
5. Companies that do not stand behind their work

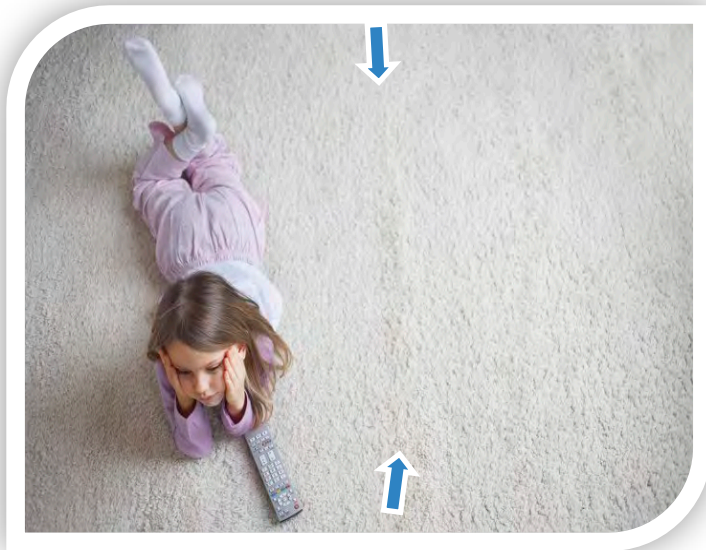

# ↓ THE DETAILS MAKE THE DIFFERENCE

A beautiful picture doesn't look good with an ugly frame, does it?

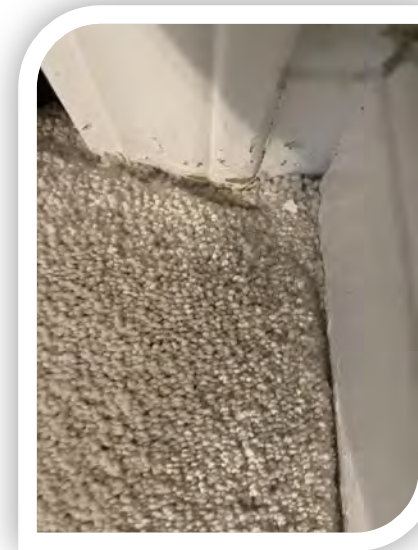

The corners and seams are the frames that finish a carpet floor.

I had new Laminate flooring installed Apr 2022. I love the way it looks and although they came just to quote my kitchen, I decided to do kitchen, dining room and living room. They were very easy to work with and installation was setup and they completed the job in one day. They were on time and cleaned up nicely.

Pleased with this flooring company. There were a few issues I wasn't satisfied with and Demacio called me from the main office about it. Project manager Matthew came right over and personally fixed the issues and also refunded a portion of the total cost in cash which in my opinion went above and beyond excellent customer service.
